What port zip code am I supposed to enter on this Alaska shipment?

Anita L - 2021-04-14 - Rating a Shipment

When trying to rate a shipment with an Alaska location as the origin and/or destination, you are required to also enter the port used. Once the port is selecting, entering the port zip code is also required to assist in mileage calculations. Here are the zip codes Daycos uses for those port locations:

SITKA, AK: 99835; 99836
JUNEAU, AK: 99802
KODIAK, AK: 99615
