IAM Seeks Industry Feedback on CMMC Level 2 Readiness

The International Association of Movers (IAM) is gathering feedback on CMMC Level 2 readiness across the U.S. military moving industry.

If your company participates in DP3, you're encouraged to complete this brief, anonymous survey.

Responses will help IAM assess industry readiness and will be reported in aggregate.

The survey takes just 3–5 minutes, with one response requested per company. IAM membership is not required.
